This kind of compilation is impossible without official assistance/guidance. Timing coincides with Cit/Spark interest in repressive legislation, all cited personal sources violated contracts/oaths w/o prosecutions. (Bagley asst chief Soviet Branch, Mosenko case?) All cited sources of the extremist (Fonzi right) [illegible] with same axe to grind... Golitsin's story leaked months earlier... Burton Hoover [illegible] not new in any sense. It is a traditional spook problem... note her claim to need of Post to obtain Classified info previously withheld... Some of writing not honest - i.e. how were Popov + Penkovsky caught. ... Someone has again angled to get us out for a spook domestic/political use, one in which key facts - some clear for the Lyttenist conspiracy position is not. Indictable, I may be an idiot.
